EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to amendment filed on October 26, 2005.

2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

a. After carefully reviewing the application in light of the prior art of record, the amended claims and additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the claims 19-21 unpatentable. Thus, it is found that the application is now in condition for allowance.

b. Although the prior art disclose several claimed limitations, none of the references teaches an apparatus for detecting the direction of movement of a vehicle on starting from rest which includes a plurality of vehicle speed sensor for generating the pulse signals, the frequency of the pulses corresponding to the speed of the vehicle, wherein the pulses of one sensor are out of phase with those of another sensor by less than half frequency of the pulses, and the pattern of pulses produced by the sensors at start up of the vehicle is used to compare to the pattern of pulses when the vehicle last came to rest in order to generate the direction of movement of the vehicle (claim 19).

c. Claims 19-21 are allowable over the prior art of record (now renumbered as 1-3).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (703) 305-9755. The examiner can normally be reached on Monday-Thursday from 5:30 AM-4:00 PM
